

490-048 C R Clarke Schred R30 Plastic Sheet Making Press

The Product

The C R Clarke R30 Plastic Sheet Making Press is ideal for schools wanting to teach sustainable manufacturing techniques. Students can learn how to reprocess plastic and form their own sheets, up to 458 x 305mm in size. Not only does this machine produce a unique project material, but at almost no cost. Giving you more flexibility on how you spend your budget.

Features:

- Flexible sheet size – Change the heat tray to create sheets that fit your vacuum former
- Low cost materials – Slash your sheet material budget costs
