

# HAND SAW

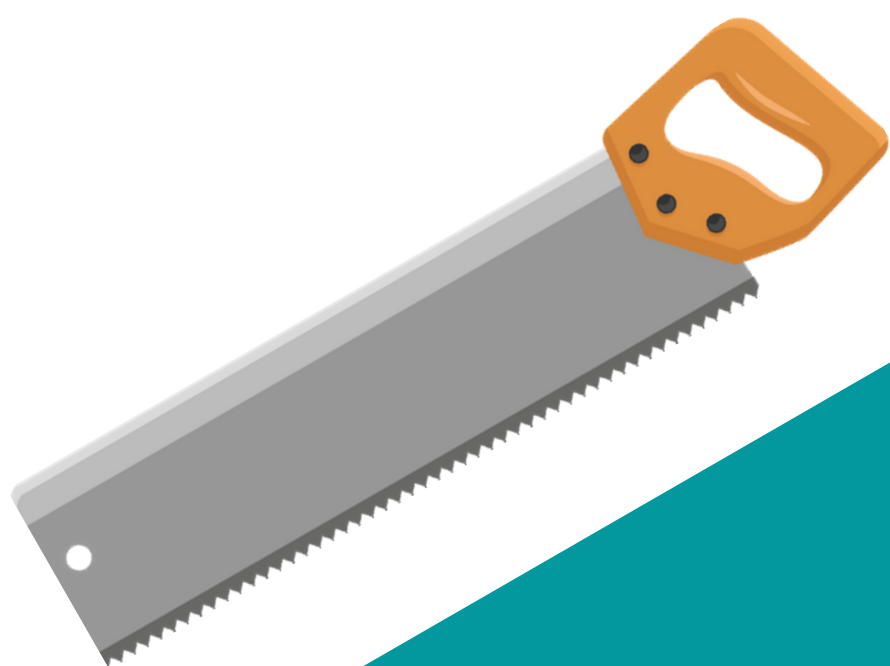

Although not a clean, precise cut, it will cut through large pieces of wood quickly and easily.

# COPING / FRET SAW

The large throat and thin, narrow blade makes detailed, trimming, and precise, intricate cutting easier. Can be used to cut a wide variety of materials.

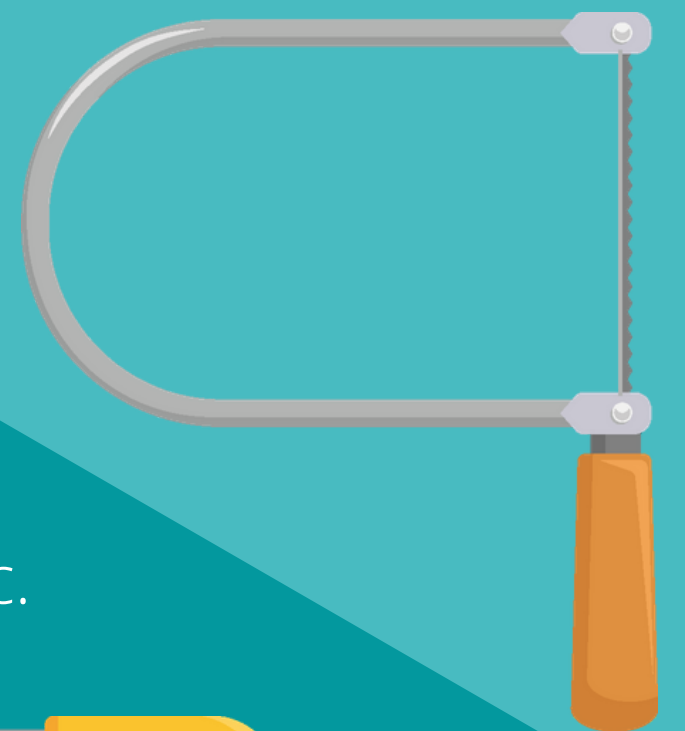

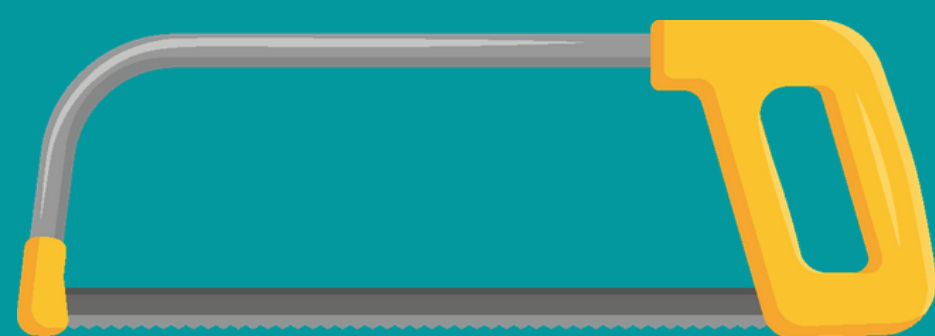

# TENON SAW

...great for cutting smaller pieces of wood & most joints.

# HACK SAW

...perfect for cutting metal and plastic.

# WHAT JOB...WHAT SAW?
